Sept. 3, 1926.

35

128 in Atlas of the City of Trenton. This contract is dated May 3rd, 1910 and the consideration therein is \$600. to be paid as follows, namely \$300. cash, and installments of \$25. monthly until the balance is paid. After signing the contract and before getting title she employed Winfield Scott Hill to erect a barn on the property and failed to pay him for his work. Because of her not having title Scott could not file a lien and lost his money. Scott is now residing at Dutch Neck and I intend to see him as I understand that he may have some information of value.

I omitted to say that McClurg informed me that one day in conversation with Mrs. Easton, she asked him if he could tell her what nationality she was, stating that one of her parents was French, one German and that she had been born on a Spanish ship. On another occasion she informed him that she had at one time been a bare back rider in a circus.

Al Manning was out of town for the week-end and could not see him. Willis P. Bainbridge, an attorney of Trenton, is reported to be the man who handled the matter of the assignment made by Mrs. Easton. Both he and his secretary, a Mrs. Smith, were out of town, but Mrs. Smith will be back on Tuesday and I will endeavor to get some information from her.

Respectfully submitted:

D T
